

# Enzo Emami

949-317-6621 | [enzo.emami@berkeley.edu](mailto:enzo.emami@berkeley.edu) | [LinkedIn](#) | [Hardware Portfolio](#)

## EDUCATION

---

### University of California, Berkeley

*B.S. Industrial Engineering & Operations Research*

Berkeley, CA

*Expected May 2028*

## EXPERIENCE & VENTURES

---

### Founder in Residence – NeuroFocus BCI [\[PDF\]](#)

2026

*Founders, Inc. – Offseason 2 (2.5% acceptance)*

*San Francisco, CA*

- Built and launched a headset-integrated EEG product for competitive gamers, taking one working prototype into weekly testing with multiple SJSU Esports players and securing initial paid pre-orders.
- Parametrically tested 7 electrode pressure angles from 1°–15° across TPU prototypes; player testing drove a redesign from a forehead-mounted mechanism to an ear-pad-integrated sensing architecture.

### R&D Hardware Designer

Apr. 2025 – Jun. 2025

*Infineon Technologies – PSoC 6*

*Cupertino, CA*

- Expanded a computer-vision drone platform to 3 target use cases—commercial, law-enforcement, and safety—by designing and manufacturing an aerodynamic Class-A enclosure.
- Built the rooftop-deployed parking-search demo by wiring the PSoC 6 electronics and packaging sensors, PCB mounts, fasteners, and assembly interfaces into an easy-to-print and assemble enclosure.

### TBD Consulting

Jan. 2025 – Present

*Founder & Head Designer – Project-Based*

- Closed an \$11,000 AMD engagement to design and deliver SLS-printed tablet stands for AMD's AI Summit, taking the hardware from CAD through manufactured parts.
- Completed 8+ client engagements across NURBS surfacing, CAD, industrial design, and physical prototyping for AMD, Autodesk, Pinkbike, and other clients.

### Cherrypicker

2026 – Present

*Founder*

- Built and launched a transfer-planning platform combining articulation requirements, academic history, live course availability, and automated multi-quarter planning.
- Advanced the product into the contracting process with the Foothill-De Anza Community College District for district-supported student use; institutional sponsorship terms are under negotiation.

### Emami Robotics Alliance

Aug. 2025 – 2026

*Founder*

*Bay Area, CA*

- Founded a 7-campus intercollegiate robotics competition network supporting 100+ students, authored its competition and safety ruleset, and secured \$10,000 in institutional funding through the FHDA Foundation.

### Lead Robot Designer

May 2021 – Jul. 2024

*FIRST Robotics (FRC / FTC)*

*Fremont / Palo Alto, CA*

- Led mechanical architecture for 7+ competition robots; team finished top-4 at the FIRST World Championship and won four regional events.
- Designed a quad-flywheel shooter and pivoting turret on a swerve drivetrain, enabling fire-on-the-move under weight, power, packaging, and reliability constraints.

## TECHNICAL SKILLS

---

**CAD & Design:** SolidWorks, Onshape, PTC Creo Parametric, Fusion 360, NURBS Modeling, Class-A Surfacing, Parametric Modeling

**Prototyping & Manufacturing:** 3D Printing, SLS, CNC Machining, Manual Machining, Mechanical Packaging, Design for Assembly, Industrial Sketching
